Work experience

Project manager

WAWA – Sustainable Architecture 2021 – 2023

- Managed multiple new building projects, ensuring alignment with Israeli green building certifications while serving as the Subject Matter Expert (SME) for building insulation.
- Led the development and implementation of comprehensive sustainability strategies, incorporating energy efficiency, water conservation, and material selection best practices.
- Conducted thorough quality assurance checks on project deliverables and ensured compliance with all relevant regulations and standards.
- Effectively collaborated with cross-functional teams (architects, engineers, contractors) to achieve project goals and deliver successful sustainable building projects.

Sustainable Consultant

Alter landscape Architecture and Green Building 2020 – 2021

- Developed and implemented sustainability strategies for new building projects, aligning with government green building certifications by reviewing project documentation and assessing certification requirements.
- Constructed detailed sustainability reports addressing energy efficiency, water conservation, and material selection, ensuring compliance with relevant regulations.
- Collaborated with planning teams to integrate sustainability initiatives throughout the project lifecycle offsite and onsite.
- Gathered all necessary plans, strategies, and certifications with meticulous attention to detail and adherence to government standards, ensuring successful project approvals and execution.

Sanitary & Fire Protection Engineer

A. Papish & Co. Consulting Engineers 2016–2018

- Designed and planned infrastructure for water supply, sewer networks, and fire protection systems, ensuring full compliance with government regulations.
- Produced detailed technical plans through all phases, from conceptual design to final construction.
- Contributed to a wide range of projects in residential, commercial, and industrial sectors, delivering tailored solutions.
- Facilitated communication between engineers and key stakeholders to ensure smooth project execution.
- Collaborated closely with senior engineers to create accurate designs and regularly issued construction sheets for on-site use.

Education

Web development

Barcelona Code School

BE in Civil Engineer

Shenkar College of engineering

Technical skills

Javascript, React JS, Github, node JS, Autocad, Revit, SketchUp

Soft skills

Strong organizational and project management skills with a proven ability to effectively communicate and collaborate. Proficient in English.
